

Got **computer** troubles?

Don't get mad.

Get help.

Every computer has problems. And when your computer stops working, or starts behaving erratically, you need it back the way it should be - fast. That's where I can help.

Whether you've got major problems, need a check-up to keep everything running smoothly, or just want some advice, I provide convenient on-site assistance at a time that suits you.

I also offer a variety of services to help you meet the computing needs of your home office, without breaking the bank.

Don't brave the electronic frontier by yourself! Call **David Harper** now on **0421 550 063** to make an appointment, or visit **www.david-harper.com** for more information.

I provide a range of services, from basic maintenance to major upgrades. I can help you to:

- **Learn** how to use your computer more effectively;
- **Back up** your documents, favourites and email;
- Upgrade to **Windows 7**, especially if you already have Windows Vista;
- Prevent dangerous **virus attacks**, and remove viruses and **spyware** from infected computers;
- Protect your children from **cyber-safety threats**;
- Build a **network** and share your Internet access to all of the computers in your home or home office;
- Discover quality **low-cost** or **free alternatives** to expensive applications and utilities;
- and more!

If you have a question or a problem, chances are I can help. Remember, there is absolutely **no obligation** when you call or email. Alternatively, you can visit my website - www.david-harper.com - for more information. I look forward to being of assistance to you!
